

Guidelines for Choosing A Room

When you register as a foreign delegate, you have many options for choosing rooms. Here is a guideline for you.

- We want you to stay together by continent, or by country, by chapter, depending on the size. For this, we have prepared a table.
- During the internet registration, you will find the building codes and floor information. Please, choose a room in the suggested building code so long as rooms are available.
- We have provided you with the information on the air conditioner in the room. We hope our recommendation is acceptable to you. Otherwise, you may choose the rooms in other buildings at your discretion.
